

Virtual Workshop Hospital Design and Patient Safety

by Nora Colman MD, Children's Healthcare of Atlanta

Friday, 1 December 2023, 13:00-17:00

Patient safety is highly dependent on the design of health-care facilities. Learn how evidence-based design principles promote safety, efficient workflows and a healing environment.

The virtual workshop offers insights into the connection between hospital design and patient safety – with interactive presentations, case studies, group discussions and exercises.
